by [Logan Smith](#) updated 1 week ago

This page has the full list of cheat codes for the PS4 and PS3 versions of GTA 5 as well as some original videos and first-hand advice on using them. Here are the [Xbox One / Xbox 360 cheat codes](#), the [PC cheats](#) or the [cell phone cheats](#).

How to Enter GTA 5 Cheats on PlayStation

Grand Theft Auto 5 cheats are a must for anyone. Not only can you instantly spawn weapons, vehicles and refill your health and armor, you can also manipulate everything from the game's physics (try moon gravity), to bullet time (slow motion aim) and even the weather. So these GTA 5 cheat codes on the PS4 and PS3 do much more than simply letting you have a little fun or blowing off some steam, you can also use them to help you complete a particularly hard mission or create some whacky gameplay videos for your own amusement. The possibilities are literally endless! To activate them all you need is the correct button combination, or you can use the in-game cell phone. Follow this guide to learn both methods of using GTA 5 cheats and discover the best one that suits you.

For

: PS4 or PS3.

Time

: 30 seconds.

1. Save Your Game

: Using Grand Theft Auto cheats will disable Trophies for your gaming session and you'll need to either reload your game or reset your console in order to bring them back. For this reason you should always save your progress before using any cheat.

2. Choose Your Cheat

: Select the code that you want to activate by choosing it from [our list below](#). You'll see that we've divided them into various categories to make it easier. Chances are, if you're looking for a specific code or cheat, we have you covered.

3. Decide On Your Method

: You can enter cheats using either the digital pad (d-pad) and buttons on your PS4 / PS3 controller or by using the [in-game cell phone](#) (on the PS4 only).

4. Enter The Button Combo

: Assuming you have selected the button combination method, press the required buttons quickly in the correct order during gameplay (not the pause menu).

5. Cheat Code Active

: If you entered the button combo correctly, you should see a message on-screen that the cheat code is now active.

There is no money cheat in story mode or GTA Online. It is impossible to get unlimited money using any kind of code. No tank spawn cheat exists either.
